# 400,000+ street trees face heat stress—while kids lack nature education and companies seek local CSR

THE URBAN CLIMATE CRISIS

## 400,000+ Street Trees & Concrete Schoolyards

- **430,000+ street trees facing drought:** Berlin's street trees suffer severe crown thinning and water stress during recurring heatwaves.
  *[Source: Berlin Senate Tree Register & Baumzustandsbericht]*
- **Kids & seniors most vulnerable:** High-density urban heat islands heat up concrete courtyards by up to 10°C, while public schools and Kitas lack budget for guided outdoor nature programs.
  *[Source: Robert Koch Institute (RKI) & Berlin Climate Adaptation Plan AFOK]*

OUR VISION & OPPORTUNITY

## Blatt: Hands-On Climate Action, Kiez by Kiez

- **Our Mission:** We empower communities and companies through guided, experiential outdoor nature workshops across all four seasons.
- **Untapped Corporate Demand:** Companies actively search for meaningful, local CSR team-building days to engage employees and fulfill new ESG/CSRD sustainability criteria.
  *[Source: EU CSRD Corporate Sustainability Reporting Directive]*

# Action-oriented environmental education across all 4 seasons

Blatt is an interactive workshop platform: We combine ecological science with learning by doing (Mitmach-Workshops):

🌸 SPRING (MAR–MAY)

## Wild Bees & Pollinators

Assembling safe, non-stinging solitary wild-bee nesting kits (Insektenhotels) and sowing native wildflower seeds.

🌞 SUMMER (JUN–AUG)

## Heat Defense & Trees

Citizen science: measuring 15°C+ live cooling with infrared sensor thermometers, mapping pumps, and deep-root watering.

🍂 AUTUMN (SEP–NOV)

## Soil Health & Mulching

Aerating compacted urban soil, spreading biological woodchip mulch to insulate tree roots, and planting early bulbs.

❄️ WINTER (DEC–FEB)

## Winter Ecology & Birds

Building wooden bird feeding stations and winter biodiversity shelters in combined indoor-outdoor maker sessions.

# Companies pay for CSR days, funding 100% free nature education for kids

CROSS-FINANCED BUSINESS ENGINE

## How Blatt Funds Free Community Education

- **B2B Corporate CSR Workshops:** Companies pay **€1,500 to €2,800 per session** (12–25 employees). Includes an expert facilitator, tools, safety gear, and an official CSR impact report.
- **1-for-1 Community Cross-Financing:** Every paid corporate workshop directly sponsors **1 free workshop for a local public school or Kita class** (20–25 kids).
- **Realistic Unit Economics:** Material and tool kits cost ~€250–€350 per session, leaving healthy margins to cover educators and scale.

NET-POSITIVE IMPACT · UN SDGS

## Measurable Real-World Outcomes

- **Quality Education (SDG 4):** Free hands-on environmental education for children regardless of school budget or family income.
- **Sustainable Cities & Climate (SDG 11 & 13):** Practical urban heat mitigation, protected street trees, and engaged local neighborhoods.
- **Year 1 Pilot Goal:** 10 corporate CSR days delivered, cross-financing 10 free school sessions (400+ participants trained).

Faizan Ahmed & Maham Shakil

# What we already built: live bilingual platform & validated concept

LIVE WORKING PRODUCT

## Interactive Platform Live at faizan021.github.io/blad-berlin/

- **Interactive Heat Simulator:** Live digital simulation demonstrating the 15°C cooling effect of tree-covered soil vs. bare asphalt.
- **Curated Tree Care Guide:** Practical care cards tailored for Berlin's primary street tree species (Linden, Maple, Oak, Chestnut).
- **Full Bilingual Support (EN / DE):** One-click language toggle for international and German audiences.

EARLY GRASSROOTS VALIDATION

## Clear Market Need & Realistic Next Steps

- **Direct User Feedback:** Initial interviews with 12+ urban parents and volunteers showed high enthusiasm for guided family weekend nature workshops.
- **Clear Differentiation:** Purely digital apps only show tree maps. Blatt solves the actual execution bottleneck by providing facilitators, tools, and organized groups.
- **Ready for Incubation:** The curriculum and digital MVP are built; Impact Labs gives us the framework to validate B2B corporate sales.

# Our 3-month goals with Potsdam Transfer and founding team

MONTH 1 · DISCOVERY

### 15 Discovery Interviews

Structured interviews with Kita heads and corporate CSR managers across Berlin & Potsdam.

MONTH 2 · LEGAL SETUP

### Non-Profit Entity (gUG)

Finalize non-profit legal form (gUG vs. gGmbH) with Potsdam Transfer legal mentors.

MONTH 3 · PILOTS & GRANTS

### 3 Paid Pilots & Grants

Close first 3 corporate pilot days and apply for the Brandenburg Startup Stipendium & EXIST.

Co-Founder · Business Strategy & B2B Corporate Sales

### Faizan Ahmed (Berlin)

Venture strategy, B2B sales outreach, financial planning, and platform development. Full-time commitment for all 12 workshop days.

Co-Founder · Community Operations & Educational Workshops

### Maham Shakil (Berlin)

Community outreach, educator coordination, curriculum planning, and on-site workshop facilitation. Full-time commitment.
